

-hands-on course-

The Magic of Composites – Function & Aesthetics –

Esthetics is driving more treatment than ever before. However, it is important to provide patients with conservative and affordable options to achieve those beautiful and natural smiles. Proper utilization of composite resin systems can provide wonderful solutions to recreate the beauty of a natural dentition. This lecture and hands-on workshop will present simple and predictable tips to achieve consistent esthetic results utilizing current materials and technologies with direct composites.

Dr. Paresh Shah

DMD, MS, FAGD, Cert. Esthetic Dent.
Winnipeg, MB, Canada

This course will cover:

- how to evaluate various direct composite materials so as to select the most appropriate for each situation
- practical techniques to make posterior direct restorations more natural looking
- techniques to reproduce natural contours for posterior restorations
- techniques to create proper contact areas and embrasures
- basic principles of shade and color matching useful direct composite techniques to be able to implement into practice immediately

Paresh Shah maintains a private practice in Winnipeg, Canada with a focus on implant, cosmetic and inter-disciplinary care. He graduated from the University of Manitoba in 1991 and completed a hospital residency in 1992. Dr. Shah received a Proficiency Certificate in Esthetic Dentistry at the University of Buffalo (SUNY) in 2007. He has completed levels I and II of the Postgraduate Program in Esthetic Dentistry at the University of Minnesota and has been a clinical mentor for the same program since 2002. Dr. Shah is also a part time instructor at the University of Manitoba Faculty of Dentistry.

Dr. Shah has fellowships in the Academy of General Dentistry, Academy of Dentistry International, International Academy of Dento-Facial Esthetics, Pierre Fauchard Academy and the International Congress of Oral Implantology.

Dr. Shah is a founding board member of the Canadian Academy for Esthetic Dentistry (CAED) and a member of the Council for Innovative Dentistry (3M ESPE's key opinion leader group). He is a member of Catapult, a key opinion leader group that serve as consultants for numerous dental manufacturers. Dr. Shah has been invited to lecture on esthetics at major dental meetings and organizations in Canada, USA, Middle East and Asia.
